

RICHARD KNOCHE

PERSONAL INFORMATION

ADDRESS: 8810 62nd Ave, Berwyn Heights, Maryland 20740
PHONE: (703)-801-4456
EMAIL: raknoche@gmail.com

EXPERIENCE

AUG 2011 - PRESENT

Ph.D. Candidate at THE UNIVERSITY OF MARYLAND
The LUX Dark Matter Detector

- Significant contributions to the world's most sensitive WIMP-nucleon scattering cross section limits.
- Developed ground breaking techniques that produced the world's most precise electron recoil calibration in a liquid xenon TPC.
- Developed novel techniques to produce 3D position dependent signal corrections in a spatially and time dependent electric field.
- Calibrated the detector's combined energy model.
- Built on-site gas sampling system for real-time monitoring of xenon impurities at the part-per-trillion level.
- Automated the extraction of hundreds of data features from calibration data.
- One of the first graduate students to lead on-site detector operations as Deputy Science Coordination Manager.

JUNE-SEP 2010

Research Assistant at GODDARD SPACE FLIGHT CENTER
SWIFT Gamma-Ray Burst Mission

- Analyzed data from Swift Burst Alert Telescope (BAT) to provide the most sensitive search (at the time) for hard X-ray emissions around the on-set time of supernovae.
- Quantified the X-ray counterpart to Fermi-LAT pulsar observations using X-ray emission data from the Chandra and BeppoSax missions.

AUG 2008 - MAY 2011

Research Assistant at JAMES MADISON UNIVERSITY
Department of Physics and Astronomy

- Designed and maintained table-top experiments to characterize the complex, non-linear behavior of granular systems.
- Implemented computer vision techniques to quantitatively characterize particle movement in a two dimensional shear flow.
- Utilized optical polarization techniques to quantify stress networks in granular systems.
- Performed statistical analysis to characterize relevant parameters in a two dimensional granular shear flow.

EDUCATION

EXPECTED 2016 Doctor of Philosophy (Ph.D.) in PHYSICS, **University of Maryland**
Thesis: "Signal Corrections and Calibrations in the LUX Dark Matter Detector"

MAY 2011 Bachelor of Science (B.S.) in PHYSICS, **James Madison University**

CONFERENCE PROCEEDINGS

- "Development of the LUX detector's CH₃T calibration source and ER response," APS April Meeting, Baltimore, Maryland (April 2015)
- "Search for the X-ray Counterpart of Pulsars with GeV Emissions," American Astronomical Society Meeting, Seattle, Washington (Jan 2011)

PROFESSIONAL ORGANIZATIONS

- American Physical Society

HONORS

AUGUST 2010	John Mather Nobel Scholar Award
MARCH 2010	Henry W. Leap Scholarship
MARCH 2010	Sigma Pi Sigma Inductance
2009-2011	President's List, James Madison University
2008-2011	Dean's List, James Madison University
